

mayaltha better legs

item no.: 4465

what it is

A revolutionary totally natural serum containing unique Australian plant-active ingredients to firm, detoxify and relieve tired legs. It may also assist in minimising the visual effects associated with spider veins and varicose veins.

Dermatologically tested.

what it does

- Helps to minimise appearance of spider and varicose veins.
- Aids in reducing discomfort associated with spider veins and varicose veins.
- Helps to strengthen and tone and tighten delicate vein walls and leg tissue.
- Aids in reducing inflammation of the vein walls
- Helps to detoxify and draw impurities and excess fluids
- Keeps skin supple, toned and moisturised

how to use

Apply a thin layer to the entire surface of your legs. Massage gently until completely absorbed.

when to use

Apply each morning after showering and each night before bed.

main active ingredients

Fennel Oil – Derived from the fennel flower. A natural astringent that aids in the toning of vein walls. Also possesses detoxifying, anti-inflammatory and moisturising properties.

Horse Chestnut Extract – Derived from Horse Chestnut seeds. Provides a proven tonic and natural astringent for the skin. Traditionally, herbalists and naturopaths have used this product as the only effective remedy for spider and varicose veins. It contains a high percentage of 'Escin', which is widely used in Europe as an anti-inflammatory and as a means to reduce excess fluid.

Arnica Extract – Natural astringent and anti-inflammatory. Aids in the strengthening of vein walls.
