

total blemish control gentle pore minimising toner

Ref: 23275

what it is

This refreshing toner works to minimise and unblock pores, helping to prevent bacterial growth and facilitate the healing process.

what it does

- Helps to regulate oil production and mattify the appearance of the skin
- Gently removes any remaining excess dirt, oil or make-up without drying out the skin
- Minimises the appearance of pores and nourishes blemish prone skin
- Leaves skin feeling clean and refreshed

when to use

Can be applied morning and night after cleansing and before moisturising.

how to use

Moisten cotton pad with toner and gently smooth onto face and neck after cleansing your skin. Use in conjunction with the rest of the Total Blemish Control range as directed.

main active ingredients

Glycerin – contains natural moisturising properties, drawing moisture from the atmosphere to the skin.

Chamomile Extract – known for its anti-inflammatory, soothing and regenerative properties.

Tea Tree - helps prevent bacterial growth and facilitate the healing process. Helps to regulate oil production and mattify the appearance of the skin.

Salicylic Acid - derived from the willow tree, helps to minimise and unblock pores. Also helps to break down blackheads and whiteheads.

companion products

For best results use all 4 Total Blemish Control products as part of your daily skincare programme.
